ACTIVITIES AND SUMMARY REPORT OF THE COMMITTEE ON THE BUDGET

JANUARY 3, 2005.—Committed to the Committee of the Whole House on the State
of the Union and ordered to be printed

Mr. NUSSLE of Iowa, from the Committee on the Budget,
submitted the following

R E P O R T

JURISDICTION AND FUNCTIONS OF THE COMMITTEE

The Committee on the Budget was established by the Congressional Budget Act of 1974. The committee has been responsible for developing and reporting the annual congressional budget resolution, for assembling and reporting any reconciliation legislation required by that resolution, and working on the congressional budget process. In the 105th Congress, its jurisdiction was expanded to include budget process, generally.

The main purpose of the budget resolution is to provide an overall framework and plan for congressional action on spending and revenue legislation. It sets ceilings on total budget authority and outlays and a floor on total revenues. It also allocates spending authority to the appropriations committees and among the various authorizing committees of the House and Senate that have jurisdiction over direct spending programs. The limits and allocations set by the budget resolution are enforced through points of order in the House and Senate.

The budget reconciliation process is used when changes in entitlement or tax law are needed to implement the plan set out in the budget resolution. The process begins with the inclusion of “reconciliation instructions” in the budget resolution. These instructions direct the appropriate authorizing committees to report legislation revising programs under their jurisdiction to change projected spending by specified amounts. They may also direct the tax-writing committees to report legislation revising tax law to change revenues by specified amounts.

In response to reconciliation instructions, the various committees report their legislative recommendations to the Budget Committee. The Budget Committee then assembles the legislation into an omnibus legislative package without making any substantive revisions for consideration by the House. The Budget Committee not only has jurisdiction over budget resolutions and reconciliation bills, it has legislative jurisdiction over major elements of the budget process and various statutory controls over the Federal budget.

When the House of Representatives adopted Rules for the 104th Congress (H.Res. 6) on January 5, 1995, the Budget Committee achieved for the first time legislative jurisdiction over major elements of the congressional budget process and various statutory controls over the Federal budget. In adopting the Rules of the House of Representatives for the 105th Congress (H.Res. 5) on January 7, 1997, the Budget Committee extended its legislative jurisdiction even further to cover not only the congressional budget process but all budget process in general. The committee's jurisdictional statement, House Rule X, clause 1(d), now reads as follows:

(1) Concurrent resolutions on the budget (as defined in section 3(4) of the Congressional Budget Act of 1974), other matters required to be referred to the committee under titles III and IV of that Act, and other measures setting forth appropriate levels of budget totals for the United States Government.

(2) Budget process generally.

(3) Establishment, extension, and enforcement of special controls over the Federal budget, including the budgetary treatment of off-budget Federal agencies and measures providing exemption from reduction under any order issued under part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

Under subparagraph (d)(1), the Budget Committee has exclusive jurisdiction over both budgetary levels and budgetary concepts. And under subparagraph (d)(2), the Budget Committee has primary jurisdiction over the budget process, as well as, secondary jurisdiction over purely procedural aspects of the congressional budget process. Finally under subparagraph (d)(3), the Budget Committee has exclusive jurisdiction over the establishment, extension, and enforcement of mandatory and discretionary spending limits, PAYGO requirements, and other special budgetary mechanisms to control spending, the deficit, or the Federal budgets, including the sequestration process.

In addition to its legislative duties, the Budget Committee continues to have responsibilities for oversight and studies. These responsibilities include oversight of the Congressional Budget Office; study of the outlay effects of existing and proposed legislation; study of off-budget entities; study of tax expenditures; and study of proposals to improve and facilitate the congressional budget process.

SUMMARY OF ACTIVITIES

FISCAL YEAR 2004 BUDGET CYCLE

The committee began consideration of the congressional budget for fiscal year 2004 on March 12, 2003, with the markup of the Fiscal Year 2004 Concurrent Resolution on the Budget, H. Con. Res.

95. Out of the 34 amendments that were offered, only 2 were adopted.

Mr. Edwards, Mr. Schrock, Mrs. Capps, Mr. Thornberry, Mr. Brown, Mr. Crenshaw and Mr. Scott offered an amendment to increase BA and outlays for Function 500 to reflect sufficient funding to maintain Impact Aid services at the 2003 level. The levels are as follow BA: 2004: \$223; outlays: 2004: \$201; 2005: \$9; 2006: \$7; 2007: \$4; (millions for fiscal year). The amendment was agreed to by a roll call vote of 42 ayes and 1 no.

Mr. Nussle offered an amendment that consisted of two revisions to the legislative text. The first replaced reconciliation instructions to the Ways and Means Committee and the Energy and Commerce Committee with instructions combining required savings with funds for Medicare modernization. It included a special rule to ensure a required role of savings. The second revision inserts a contingency procedure that would adjust the levels of the budget resolution to accommodate increased spending for highways if offset by a reduction in direct spending or an increase in other resources. The amendment was agreed to by voice vote.

The report accompanying House Concurrent Resolution 95, House Report 108-37, was filed on March 17, 2003.

On March 19, 2003, the Committee on Rules reported a rule (H.Res. 151, H.Rept. 108-44) providing for the consideration of the concurrent budget resolution. After the debate, no further consideration of the budget resolution would be in order except pursuant to a subsequent order of the House.

The rule considered an amendment in the nature of a substitute offered by the chairman of the Budget Committee to be adopted, and allowed the consideration of four alternative budgets: the Hill/Moore/Stenholm/Turner Blue Dog Substitute; the Toomey Republican Study Committee Substitute; the Owens/Cummings/Kucinich/Lee Congressional Black Caucus/Congressional Progressive Caucus Substitute; and the Spratt Democratic Substitute. The Chairman's amendment in the nature of a substitute eliminates across-the-board savings that could be attributable to Medicare, which increases the BA and outlay totals for Medicare (Function 570) by \$200 billion over 10 years, as well as the aggregate levels of BA and outlays. It also increases interest, debt, and the deficits relative to the Committee-reported bill. Reinstates a separate 10-year allocation for Medicare, which can accommodate a bill reported by either Ways and Means or Energy and Commerce. Reinstates a reserve fund for Medicare, which fences off \$400 billion for Medicare modernization and prescription drug coverage. Gets to balance in 2012, with a surplus of \$21 billion. Increases discretionary BA for veterans (Function 700) by \$844 million in fiscal year 2004. Adds findings and purpose language to reconciliation instructions to emphasize the congressional intent that the savings are to come from eliminating waste, fraud, and abuse. Reconciles savings to 13 committees. Modifies across-the-board reduction to correct for error in agriculture baseline (this correction lowers the amount of savings required of most committee to achieve a 1-percent reduction from fiscal year 2003). Reduces outlays levels in transportation (Function 400) because the Committee-reported resolution overstates the increase in outlays necessary to reach CBO's baseline. Corrects

contract authority levels in reserve fund for highways (Section 311), which were overstated in reported resolution.

H.Res. 151 was passed by the House on March 20, 2003. Under the terms of H.Res. 151, the House considered the H. Con. Res. 95 on March 20, 2003. All four alternative budgets made in order were defeated on recorded votes; and the budget resolution was agreed to by a recorded vote (215–212).

H. Con. Res. 95 was amended by the Senate and passed under unanimous consent on March 26, 2003; and on April 1, 2003, the House agreed to a conference with the Senate on the budget resolution. Mr. Nussle, Mr. Shays and Mr. Spratt were appointed as conferees by the House on April 1, 2003. The conferees agreed to a conference report, H.Rept. 108–71. The House agreed to the conference report on April 11, 2003, by a recorded vote (216–211) and the Senate agreed to the conference report the same day.

Section 201 of the House reported resolution instructed 13 authorizing committees to reduce spending by 1-percent in programs, projects, or activities within their jurisdiction in fiscal year 2004, the period from fiscal year 2004 through 2008, and the period from fiscal year 2004 through 2013. With the exception of the Committee on Science, all authorizing committees complied with the instructions and reported findings.

Section 201 of the conference report differed from the House reported resolution. It set forth reconciliation instructions for the Committee on Ways and Means to report legislation by May 8, 2003 to stimulate economic growth and to simplify and reform the tax system. The committee must reduce the total level of revenues by not more than \$535.0 billion for the period of fiscal years 2003 through 2013, and to increase direct spending related to tax policy changes by \$15.0 billion over 2003–2013. Section 201(b) of the Conference Agreement instructs the Senate Finance Committee to report legislation by May 8, 2003 to reduce revenues by \$522.524 billion over 2003–2013 and to increase direct spending related to tax policy changes by \$27.476 billion over 2003–2013.

Chairman Thomas introduced H.R. 2, To provide for reconciliation pursuant to section 201 of the concurrent resolution on the budget for fiscal year 2004, on February 27, 2003. The House agreed to H.R. 2 on May 9, 2003 by a recorded vote (222–203). The Senate considered the reconciliation bill on May 15, 2003; and agreed to the bill with an amendment on May 15 by a recorded vote (51–49). The House agreed to a conference on May 22, 2003. The conference committee agreed to a conference report (H.Rept. 108–126), that the House agreed to on May 23, 2003, by a recorded vote (231–200). The Senate agreed to the conference report on the same day also by a recorded vote (51–50). The bill became Public Law 108–27 when the President signed the bill on May 28, 2003.

FISCAL YEAR 2005 BUDGET CYCLE

The congressional budget cycle commenced on March 11, 2004, with the markup of the Fiscal Year 2005 Concurrent Resolution on the Budget, H. Con. Res. 393. Out of 33 amendments offered, only 2 were adopted.

Ms. Brown-Waite offered an amendment to increase function 700 by the following amounts: For fiscal year 2004: \$0 in budget authority; and \$0 in outlays; for fiscal year 2005: \$200 million in

budget authority; and \$100 million in outlays; for fiscal year 2006: \$201 million in budget authority; and \$168 million in outlays; for fiscal year 2007: \$202 million in budget authority; and \$190 million in outlays; for fiscal year 2008: \$203 million in budget authority; and \$198 million in outlays; for fiscal year 2009: \$204 million in budget authority; and \$201 million in outlays. The amendment also decreased funding in function 800 by the following amounts: For fiscal year 2004: \$0 in budget authority; and \$0 in outlays; for fiscal year 2005: \$200 million in budget authority; and \$100 million in outlays; for fiscal year 2006: \$201 million in budget authority; and \$168 million in outlays; for fiscal year 2007: \$202 million in budget authority; and \$190 million in outlays; for fiscal year 2008: \$203 million in budget authority; and \$198 million in outlays; for fiscal year 2009: \$204 million in budget authority; and \$201 million in outlays. The amendment offered by Ms. Brown-Waite was agreed to by a voice vote.

Mr. Nussle offered an amendment in the nature of a substitute to reduce revenue and increase budget authority and obligation limits in function 400 to reflect technical changes in the contingency procedure for surface transportation.

The amendment was agreed to by voice vote.

The report accompanying House Concurrent Resolution 393, House Report 108-441, was filed on March 19, 2004.

The Committee on Rules reported a rule (H.Res. 574, H.Rept. 108-446) providing for the consideration of the concurrent budget resolution. The rule allowed the consideration of four alternative budgets: the Scott/Cummings Congressional Black Caucus Substitute; the Hill/Stenholm Blue Dog Substitute, the Hensarling Republican Study Committee Substitute; and the Spratt Democratic Substitute. The House passed H.Res. 574 on March 25, 2004.

Under the terms of H.Res. 574, the House considered H. Con. Res. 393 on March 25, 2004. All four alternative budgets made in order were defeated on recorded vote, and the budget resolution was agreed to by a recorded vote (215-212). On March 12, 2004 S. Con. Res. 95, the companion measure to H. Con. Res. 393, was passed in the Senate by a recorded vote of (51-45). On March 29, 2004, the House passed S. Con. Res. 95 with amendment, and on March 30, 2004 the House agreed to a conference with the Senate on the budget resolution. The conference report, H.Rept. 108-498, was filed on May 19, 2004. On May 19, 2004, the conference report was passed by the House. The Senate did not bring up the conference report for a vote. As a result, the Congress never adopted the budget resolution for fiscal year 2005.

The rule for consideration of the conference report in the House, H.Res. 649, which passed the House on May 19, 2004 contained a special provision. The provision provided that upon adoption in the House of the conference report to accompany S.Con. Res. 95, and until a concurrent resolution on the budget for fiscal year 2005 was adopted by the Congress: (1) the provisions of the conference report and its joint explanatory statement shall have force and effect in the House; and (2) for purposes of the Congressional Budget Act of 1974, the conference report shall be considered adopted by the Congress. A similar provision for the Senate was included as Section 14007 in the conference report on H.R. 4613, the Defense Appropriations Act for FY2005, which President Bush signed into law on

August 5, 2004, as P.L. 108–287. This meant that congressional budget controls under the Budget Act could be enforced.

On March 16, 2004, Chairman Nussle introduced H.R. 3973, a bill to amend part C of the Balanced Budget and Emergency Deficit Control Act of 1985 to extend the discretionary spending limits and pay-as-you-go controls through fiscal year 2009, which was referred to the Committee on the Budget. The committee held a mark-up session on March 17, 2004 and by voice vote ordered the bill reported. The accompanying report was H.Rept. 108–442. In addition, on June 23, 2004 Chairman Nussle introduced H.R. 4663, a bill to amend part C of the Balanced Budget and Deficit Control Act of 1985 to establish discretionary spending limits and a pay-as-you-go requirement for mandatory spending. On June 24, 2004, H.R. 4663 was considered by the House pursuant to rule H.Res. 692. H.R. 4663 was defeated by a roll call vote (146–268) on June 25, 2004.

OTHER LEGISLATIVE ACTIVITIES

H.Res. 5, the organizing resolution

The organizing resolution (H.Res. 5) adopted by the House on January 7, 2003 at the commencement of the One Hundred Eighth Congress contained several provisions related to the congressional budget process. H.Res. 5 reinstated the so-called Gephardt Rule that provided for the automatic passage of a debt-limit bill upon the House passage of a conference report on the concurrent budget resolution.

The resolution also contained several provisions relating to the enforcement of the Congressional Budget. The first provision clarified that references in section 306 of the Congressional Budget Act of 1974 to resolutions shall be construed in the House of Representatives as references to a joint resolution.

The second provision clarifies that section 303 of the Congressional Budget Act of 1974 applies to reported bills or joint resolutions considered under special order on the basis of the text made in order as an original bill or joint resolution for purpose of amendment or text on which the previous question is ordered directly to passage. The third provision clarifies that the establishment for a Federal office or position at a specified or minimum level of compensation to be funded by annual discretionary appropriations shall not be considered as providing new entitlement authority within the meaning of the Congressional Budget Act of 1974.

Discretionary spending limits for fiscal year 2004

On September 24, 2003, the House passed H.R. 3087, a bill to provide an extension of highway safety, motor carrier safety, transit, and other programs funded out of the Highway Trust Fund pending enactment of a law reauthorizing the Transportation Equity Act for the 21st Century. Section 10 of H.R. 3087 amended the Balanced Budget and Deficit Control Act of 1985, and TEA–21, to set discretionary spending limits for FY 2004 under the highway and mass transit categories. H.R. 3087 was enacted as Public Law 108–88 on September 30, 2003.

Discretionary spending limits for fiscal year 2005

On September 20, 2004, the House passed H.R. 5183, a bill to provide an extension of highway safety, motor carrier safety, transit, and other programs funded out of the Highway Trust Fund pending enactment of a law reauthorizing the Transportation Equity Act for the 21st Century. Section 10 of H.R. 5183 amended the Balanced Budget and Deficit Control Act of 1985, and TEA-21, to set discretionary spending limits for FY 2005 under the highway and mass transit categories. H.R. 5183 was enacted as Public Law 108-310 on September 30, 2004.

BUDGET ENFORCEMENT

In the 108th Congress, Chairman Nussle pursued an aggressive agenda to contain non-defense spending increases to no more than 1 percent. At the time, the task seemed rather daunting given some of the increases in spending in prior Congresses. Chairman Nussle provided strong leadership and consistently objected to legislation brought before the House that violated the budget resolution. With great resolve, the Committee was able to successfully raise a number of point of order challenges against legislation that violated the budget resolution. Among the more notable challenges was the point of order that Chairman Nussle raised against H.R. 4837, a bill to provide appropriations for military construction, family housing, and base realignment and closure for the Department of Defense for the fiscal year ending September 30, 2005, and for other purposes. Despite tremendous opposition, Chairman Nussle raised a point of order against the measure due to the content of Section 129 of the bill which sought to change existing law and constituted legislation in an appropriation bill. The point of order was sustained, that section was excised and the bill passed on July 22, 2004 in compliance with the Congressional Budget Act.

The rigorous budget enforcement can in part be attributed to early communications with authorizing and appropriations committee staff, the Rules committee and House leadership. The success is also due in no small part to the weekly committee report called "Budget Week." "Budget Week" which was first implemented during the 107th Congress and continued in the 108th Congress, reports on the budgetary implications of each bill scheduled for consideration in a given week. This report provides a quick way for Members to see the impact of proposed legislation. In the 108th Congress, the committee released 57 "Budget Weeks."

In addition to "Budget Week," the committee also produced more in depth reports on appropriations and on other bills with significant budgetary implications. The committee released 45 "Appropriations Updates" and 4 "Legislative Updates."

OVERSIGHT ACTIVITIES

The Budget Committee's oversight responsibilities are determined by both the breadth of the Federal budget and the relatively narrow focus of its legislative jurisdiction.

Under clause 1(d)(1) of House Rule X, the primary responsibility of the Budget Committee is the development of a concurrent budget resolution that sets spending and revenue levels in aggregate and across 20 budget functions. These budget functions encompass all

Federal programs or activities other than those that are defined as off-budget, such as Social Security and the Postal Service, and those that are considered nonbudgetary, such as the Federal Reserve.

Although the subject matter of the budget is inherently broad, the committee's formal oversight responsibility focuses on law governing the budget process and the agencies responsible for administering elements of those laws. Under clauses 1(d)(2) and (3) of House Rule X, the major laws falling within its oversight are the Budget and Accounting Act of 1920, the Congressional Budget Act of 1974, and the Emergency Balanced Budget and Deficit Control Act of 1985. The two agencies with primary responsibility for administering elements of these laws and hence which fall under the committee's jurisdiction are the Office of Management and Budget and the Congressional Budget Office.

In addition to these general oversight responsibilities, the Budget Committee has the special oversight responsibility under clause 3 of House Rule X to study the effect of budget outlays of existing and proposed legislation and to request and evaluate continuing studies of tax expenditures.

The committee met on February 4, 2003, to organize for the 108th Congress. In addition to adopting rules of procedure for the committee, the committee also adopted a written oversight plan. The oversight plan called for the committee to hold hearings in the process of developing the annual concurrent budget resolutions. The committee planned to receive testimony from Members of Congress, Cabinet-level and other Federal officials, State and local officials, and expert witnesses to review the President's budget submissions and other alternatives to programs and activities.

The committee plan specifically called for the committee to submit to the Speaker of the House of Representatives and the President pro tempore of the Senate, pursuant to Section 201(a)(2) of the Congressional Budget Act of 1974, the recommendation of a replacement to fill the position of Director of the Congressional Budget Office. The committee conducted an extensive search of industry and academic professionals. After careful deliberation, the committee recommended Douglas Holtz-Eakin. The recommendation of the committee was agreed to on February 5, 2003 by the Speaker of the House and the President pro tempore of the Senate. Mr. Douglas Holtz-Eakin was appointed to serve as the Director of the Congressional Budget Office for the term ending on January 3, 2007.

The oversight plan also called on the committee to oversee the Office of Management and Budget's implementation of budget submission, control, execution, and enforcement procedures under the Budget and Accounting Act of 1920, the Congressional Budget Act of 1974, the Balanced Budget and Emergency Deficit Control Act of 1985, the Budget Enforcement Act of 1990, and other applicable laws. The oversight plan also called for the evaluation and study of direct spending and tax incentives policies and monetary policy and its effects on the Federal budget.

In furtherance of the committee oversight plan, the committee held 28 hearings in the 108th Congress. A list of the hearings held and the witnesses questioned can be found under the Committee Publications section of this report.

On June 18, 2003, the committee held a hearing to address the issue of waste, fraud and abuse in Federal mandatory programs. This hearing was a continuation of earlier efforts initiated by the committee during the budget resolution to find savings in Federal mandatory programs. A companion hearing was held on July 9, 2003 which provided a closer look with Inspectors General addressing waste, fraud, and abuse in Federal mandatory programs.

During the 108th Congress, the committee received five General Accounting Office reports pursuant to requests made by the chairman:

1. January 2003, Long-Term Commitments: Improving the Budgetary Focus on Environmental Liabilities, GAO-03-219.
2. January 2003, Fiscal Exposures: Improving the Budgetary Focus on Long-Term Costs and Uncertainties, GAO-03-213.
3. August 2003, DOD Contract Payments: Management Action Needed to Reduce Billions in Adjustments to Contract Payment Records, GAO-03-727.
4. March 2004, Department of Education's Federal Direct Loan Program: Status of Recommendations to Improve Cost Estimates and Presentation of Updated Cash Flow Information, GAO-04-567R.
5. August 2004, STUDENT CONSOLIDATION LOANS: Further Analysis Could Lead to Enhanced Default Assumptions for Budgetary Cost Estimates, GAO-04-843.
