(e) **APPEALS.**—Appeals in the Senate from the decisions of the Chair relating to any provision of this section shall be limited to 1 hour, to be equally divided between, and controlled by, the appellant and the manager of the concurrent resolution, bill, or joint resolution, as the case may be. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required in the Senate to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

(f) **DETERMINATION OF BUDGET LEVELS.**—For purposes of this section, the levels of new budget authority, outlays, and receipts for a fiscal year shall be determined on the basis of estimates made by the Committee on the Budget of the Senate.

(g) **EXERCISE OF RULEMAKING POWERS.**—The Senate adopts the provisions of this section—

(1) as an exercise of the rulemaking power of the Senate, and as such they shall be considered as part of the rules of the Senate, and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of the Senate to change those rules (so far as they relate to the Senate) at any time, in the same manner, and to the same extent as in the case of any other rule of the Senate.

SEC. 13. SENSE OF THE SENATE PROVISIONS.

The following subsections are set forth as the sense of the Senate:

(a) **ASSUMPTIONS.**—The levels and amounts set forth in this resolution are based on the following assumptions:

(1) **REVENUES.**—(A) There shall not be an increase in inland barge fuel taxes beyond those increases already scheduled in current law.

(B) The Finance Committee will make every effort to find alternative sources of revenues before imposing new taxes on the benefits of Social Security beneficiaries with threshold incomes (for purposes of the taxation of Social Security benefits) of less than \$32,000 for individuals and \$40,000 for married couples filing joint returns.

(C) Consistent with the position of the Administration, the BTU tax will be imposed at the same rate on all fuels purchased by households for home heating purposes, and therefore the supplemental tax on oil will not be imposed on such fuels.

(D) Any energy tax enacted during the One Hundred Third Congress should provide such relief to the agriculture industry as is necessary to ensure that the industry does not absorb a disproportionate impact of that tax.

(2) **NATIONAL DEFENSE (FUNCTION 050).**—(A) If the estimates for inflation for fiscal years 1994 through 1998 used in the President's fiscal year 1994 budget request and this concurrent resolution are too low, the amounts for budget authority and outlays for the National Defense (050) and other budget functions should be increased to offset the adverse effects of the higher inflation.

H. Con. Res. 64—28

(B) If Congress does not enact legislation freezing Federal pay levels for fiscal year 1994 and reducing the rates of increase in Federal pay levels for fiscal years 1995 through 1997, as assumed for the President's fiscal year 1994 budget request and this concurrent resolution, there should be appropriate increases in the amounts of budget authority and outlays for the National Defense (050) and other budget functions in this concurrent resolution to allow the departments and agencies of the Federal Government to meet the resulting increases in costs for pay.

(C) Appropriations for fiscal year 1994 for the programs, projects, activities, and authorities under budget functional category 050 (National Defense) should be made at the levels of budget authority and outlays that are provided for in this concurrent resolution for such functional category for such fiscal year.

(D) If the appropriations for fiscal year 1994 for such programs, projects, activities, and authorities are less than the levels of budget authority and outlays that are provided for in this concurrent resolution for such functional category for such fiscal year, the savings resulting from the lesser levels of appropriations should be used only for reducing the deficit in the budget of the United States.

(E) The Congress should promptly reconsider the amounts determined and declared by the Congress in this resolution to be the appropriate levels of new budget authority, outlays, new direct loan obligations, and new primary loan guarantee commitments for fiscal years 1994 through 1998 for the National Defense (050) functional category, in the event of material change in situations affecting the security interests of the United States.

(3) GENERAL SCIENCE, SPACE, AND TECHNOLOGY (FUNCTION 250).—The budget authority and outlay figures for function 250 in this resolution do not assume any amounts for the National Aeronautics and Space Administration for any fiscal year from 1994 through 1998 in excess of the amounts proposed by the President for such fiscal year.

(4) NATURAL RESOURCES AND ENVIRONMENT (FUNCTION 300).—(A) Fees charged for domestic livestock grazing on lands under the jurisdiction of the Secretary of Agriculture and the Secretary of the Interior in western States should be set at an amount that permits the ranching industry to remain viable and reflects the economic realities of the industry, rather than at an amount that meets arbitrary revenue targets.

(B) Royalty fees charged for hardrock mining should be set at an amount that permits the mining industry to remain viable in the United States and reflects the economic realities of the industry, rather than at an amount that meets arbitrary revenue targets.

(5) EDUCATION, TRAINING, EMPLOYMENT, AND SOCIAL SERVICES (FUNCTION 500).—(A) The Head Start program will be funded at the level requested by the President for fiscal year 1998.

H. Con. Res. 64—29

(B) The education reform and initiatives will be funded at the level requested by the President for fiscal year 1998.

(C) The defense conversion programs will be funded at the level requested by the President for fiscal year 1998.

(6) HEALTH (FUNCTION 550).—(A) The Committee on Labor and Human Resources will make every effort to embark upon a sustained investment strategy in health research and development over the next 5 years and support for the continuum of medical research should be a central feature in any plan to reform the United States health care system.

(B) The vast majority of rising mandatory program costs is due to increasing Federal health care costs, and these costs are assumed in the levels set forth in this resolution.

(C) Health care reform is essential to curb the escalating costs of health entitlement programs to reduce the deficit.

(D) The reduction in health costs in this budget resolution should be augmented by further savings in Federal health outlays as a part of comprehensive health care reform which will be reflected in future budget resolutions.

(E) Comprehensive health reform will result in long term savings both for the public and private sectors of the American economy, and reduce the deficit levels set forth in this resolution at an ever increasing pace.

(F) Health care reform legislation should receive priority attention by the United States Congress with a target date of enactment of such legislation being no later than September 30, 1993.

(7) INCOME SECURITY (FUNCTION 600).—The Women, Infants, and Children (WIC) program will be funded at the level requested by the President for fiscal year 1998.

(8) ADMINISTRATION OF JUSTICE (FUNCTION 750).—(A) The Community Policing (“Cops on the Beat”) program will be funded at the level requested by the President for fiscal year 1998.

(B) Funds to reduce the availability and use of illegal drugs will be shifted over the next 5 years so that the allocation shall be equally distributed between the so-called “supply side” (interdiction, law enforcement, and international supply reduction efforts) and the so-called “demand side” (education, rehabilitation, treatment, and research programs).

(b) DEBT LIMIT IN RECONCILIATION.—(1) Any concurrent resolution on the budget that contains reconciliation directives shall include a directive with respect to the statutory limit on the public debt.

(2) Any change in the statutory limit on the public debt that is recommended pursuant to a reconciliation directive shall be included in the reconciliation legislation reported pursuant to section 310 of the Congressional Budget Act of 1974 for that fiscal year.

(3) Except as provided in paragraph (4), the Senate shall not consider any bill or joint resolution (or any amendment

H. Con. Res. 64—30

thereto or conference report thereon) that increases the statutory limit on the public debt during a fiscal year above the level set forth as appropriate for that fiscal year in the concurrent resolution on the budget for that fiscal year agreed to under section 301 of the Congressional Budget Act of 1974.

(4) The prohibition of paragraph (3) shall not apply to a reconciliation bill or reconciliation resolution reported pursuant to section 310(b) of the Congressional Budget Act of 1974 during any fiscal year (or any conference report thereon) that contains a provision that—

(A) increases the statutory limit on the public debt pursuant to a directive of the type described in section 310(a)(3) of that Act; and

(B) becomes effective on or after the first day of the following fiscal year.

(c) DEFICIT REDUCTION ACCOUNT.—It is assumed that the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives should report legislation to—

(1) establish a separate account in the Treasury into which all of the amounts by which the aggregate levels of Federal revenue should be increased would be deposited;

(2) ensure that any revenues deposited in such account would not be available for appropriation; and

(3) provide that any such revenues deposited in such account would be used to retire outstanding debt obligations of the United States Government.

(d) LINE-ITEM VETO AUTHORITY INCLUDING APPROPRIATIONS AND TAX EXPENDITURES.—The President should be granted line-item veto authority over items of appropriation and tax expenditures and that line-item veto authority should expire at the conclusion of the One Hundred Third Congress.

(e) USE OF SAVINGS FROM GOVERNMENT STREAMLINING.—Any amounts saved through the efforts of the National Performance Review Task Force headed by the Vice President and as a result of any other reorganization and streamlining of

H. Con. Res. 64—31

the Federal Government should be applied to offset the cost of any economic stimulus package enacted in fiscal year 1993, and any amounts saved in excess of those necessary to offset the cost of any such economic stimulus should be applied to reduce the Federal budget deficit and for no other purpose.
